WORK EXPERIENCE

Backend Engineer Intern

Melbourne, Australia | Remote

Digital Agri Solutions Pty Ltd.

Oct. 2024 - Nov. 2025

- Engineered a containerized OIDC Identity Provider using Flask and Authlib, transitioning a legacy system to modern OAuth 2.0/OIDC standards within a Scrum team to deliver backend features through regular iterations
- Configured a “zero-downtime” dynamic login routes that automatically migrated 1000+ legacy SHA256 passwords to Werkzeug hashes, eliminating the need for manual user resets
- Enforced strict scope-based API access controls and an automated brute-force account lockout mechanism to enforce defense-in-depth security.
- Incorporated PKCE (Proof Key for Code Exchange) and token revocation endpoints to prevent authorization code interception and manage session lifecycles.

EDUCATION

Binus University

Jakarta, Indonesia

Bachelor of Computer Science | Global Class | GPA: 3.88

2023 - Present

Sungkyunkwan University

Suwon, South Korea

Dept. Computer Science & Engineering | Exchange Program

Feb. 2026 - Jun. 2026

DSC International School

Hong Kong SAR, China

High School Diploma | Grade: 86/100

2020 - 2023

PROJECTS

SignLingo – AI-Powered Sign Language Learning App

Jakarta, Indonesia

Lead Developer, Scrum Master

2025 - Present

- Led a 10-member team through Scrum lifecycle to develop and deploy a Flask-based sign language learning web app.
- Engineered a Hybrid CNN-LSTM gesture recognition model, achieving 95.3% accuracy over 26 distinct sign gestures.
- Optimized model architecture for low-resource environments, achieving real-time processing latency of under 50ms.

Flux Budget App - Digital Financial Wallet

Jakarta, Indonesia

Full Stack Developer

2025

- Developed a finance web application using Laravel, PHP, and MySQL to manage user budgets and track expenses.
- Integrated Laravel Blade templates with PHP controllers to dynamically process and render real-time user transactions.

LEADERSHIP & COMMUNITY

Manager of Academic Events Greater Jakarta

Jakarta, Indonesia

HIMTI Binus University

Feb. 2025 - Nov. 2025

- Spearheaded high-profile academic initiatives for 500+ attendees, partnering with global industry leaders including NVIDIA, Deloitte, BCA, Bank Mandiri, and CIMB Niaga
- Directed a cross-functional team of 60+, overseeing the execution of workshops, corporate visits, and talks
- Cultivated B2B relationships with senior leadership and industry experts to align event content with current industry trends in tech and finance.

Computer Teacher

Hong Kong SAR, China

Dompot Dhuafa Hong Kong Branch

Jun. 2022 - Oct. 2022

- Taught fundamental computer skills to 15+ Indonesian domestic helpers over 4 months, enhancing their digital literacy and job prospects

SKILLS AND FRAMEWORKS

Backend: Python, C, PHP, SQL, MySQL, PostgreSQL, Django, Flask, Laravel, Authlib, SQLAlchemy, Postman, OIDC

AI/ML: MediaPipe, TensorFlow, Keras, CNN, LSTM, distilBERT, Scikit-learn

DevOps: Docker, Unicorn, OAuth2, OIDC, Git, Github

Frontend & Design: HTML5, JavaScript, CSS, Sass, Tailwind CSS, Bootstrap, Canva, Figma
